Roger Holmes Trial

A round of the AMSC Trials Challenge

# ROGER HOLMES TRIAL 2026

Cambridge Car Club is pleased to announce that for another year we present the Roger Holmes Trial. This event has been running for over 50 years. So long ago that our esteemed Club Chairman was still in short trousers when it first ran. Please be assured that is no longer the case!

We are using the same field as we have done for many years. This offers its own unique challenges. It appears to be a relatively flat field but maintaining traction can be challenging and the better drivers, maybe rather than the better cars, are rewarded. It has the advantage that the ground surface is unlikely to cause damage to competitors' vehicles. This allows the opportunity for everyday cars to be used, accepting that smaller cars will tend to do better than larger cars.

We are, as ever, indebted to the landowners, the Banks family for their willing support and use of their field. Please help us preserve this goodwill by respecting the field and taking away everything you brought with you. Do not leave any rubbish behind you. Cows are the usual occupiers of the field.

We look forward to welcoming old friends that have entered before, some many times, complete novices and everyone in between. If you are new to the sport or this event, please do not hesitate to contact us for any queries you have and any guidance you might seek. Call Steve Greenhill on 07837 444469.

We hope that you are all are encouraged to enter and we look forward to seeing you all on the day.

Starting on the next page, the formal Supplementary Regulations are set out. Our website will include more information and links.

We will be using the **Sportity** app for the distribution of documents notices and results. It is an excellent way to find information. We strongly encourage all to use the app on their computers and/or smart phones. The password for access to our event is **CCC-RHT26**.
